

Medicago sativa 'du Puits' ^{see notes} France 206103
Date 11/22/64

selections have resistance to pea aphid similar
to that of Labontan - W. R. Kehr, Nebraska
✓ progress report to NC-7, 1960 907494

Individual plants selected for further evaluation
based on their reaction to leafhopper and on their
fall growth. - D. W. Paulson, IL, Caladium, 1960 acc per rep. 907495

✓ Selections with antibiosis resistance to the pea aphid
were obtained in 1961 - W. R. Kehr, Nebr. 1961- NC-7 Prog Rep. 907496

Pea aphid ^{resistant} selections made. (sum. card) - G. D.

Moore, Minn. 1969 acc per rep.

907497

Along with several other lines was used in an intercross to incorporate the types of
resistance they are supposed to carry into the progeny. This intercross was made to
develop a multi-resistant line of alfalfa. Has pea aphid, spotted alfalfa aphid, and
potato leafhopper resistance. See summary card. 907498
